

RE: Thank you

**Williams, Allen E.**

to me, Chris, Dawn

Mar 12, 2025,  
8:41 AM

Good morning Carol,

Sorry for the slow response. We are in our reporting season and things are a little hectic.

It was my pleasure to spend some time at Victoria Falls with you, Chris, and Dawn.

I believe the bones for an exceptional recycling program is in place for Victoria Falls with your leadership and the property management support. I believe the things we discussed if implemented will allow you all to reach your goal of a vibrant and robust recycling program.

Suggestions for bettering your recycling program:

1. Establish a team of enthusiastic recycling coordinators to carry out the objectives of the committee towards bettering your recycling program.
2. Brainstorm fun ways to promote the recycling program at the property and publicize goals met, needs for doing more and reward high participates who overachieve.
3. Educate residents on the importance of recycling and the impact in has on our environment.
4. Create an area where residents can learn more about recycling either on the property website, or in a common area(s) where residents frequently visit.
5. Remind residents that the property is an environmentally friendly property in every way possible. Make it a part of who you are as a community.

These are just a few of the ways I believe you can achieve your goal of making the property an award-winning waste diversion and recycling property.

I hope this helps.

Have a great day! And thanks for recycling.

Allen E. Williams
